<b>Title:</b> SYSTEM AND METHOD FOR EXECUTING WIRELESS COMMUNICATIONS DEVICE DYNAMIC INSTRUCTION SETS		<b>Notice of Allowance:</b> September 21, 2006

**TRANSMITTAL OF ISSUE FEE, PUBLICATION FEE, COMMENTS ON REASONS  
FOR ALLOWANCE AND FORMAL DRAWING**

Mail Stop Issue Fee  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Commissioner:

Enclosed please find the completed "Issue Fee Transmittal" form (PTOL-85) and a "Payment by Credit Card" form (PTO-2038) in the amount of \$1700.00 to cover the issue fee for the above-identified application. Also enclosed herewith is one (1) sheet of a formal drawing submitted in connection with the above-identified application. The corrected drawing includes the needed header information on top of the sheet, and contains a single change as compared to the as-filed figure 8: former reference number 370 to "Run-Time Engine" was changed to be reference number 812. This change was made to correct an error where reference number 370 previously referenced two distinct objects. No new matter has been added. Additionally, comments on reasons for allowance are included.

**Comments** are on page 3 of this submission.

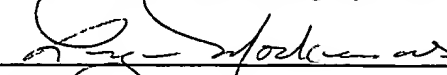

**Appendix A** begin on page 4 of this submission.

**CERTIFICATE OF MAILING**

I hereby certify that this correspondence is being deposited with the United States Postal Service via First Class Mail on **October 6, 2006** in an envelope addressed to: Mail Stop Issue Fee, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

**Comments On Statement Of Reasons For Allowance**

In addition to the elements discussed in the office actions and responses, each claim includes additional elements that, taken together and with equal weight, form the claimed subject matter. Each independent claim therefore has its own unique scope where each element in each claim is taken in combination with each of the other elements in found in each claim, including the functional and/or structural relationships between those elements. In addition to the different scope of each independent claim, each dependent claim adds additional element(s) found therein, including each element found in its dependency tree, which when combined with the functional and/or structural relationships between all the elements form additional unique claim scopes.
